

FUEL AND WATER TREATMENT UNITS FOR INDUSTRY, HOMES & CARS

Heat Exchangers
Boilers

How can one product descale all this and more? This question is being asked by chemical companies, by customers, by engineers, by insurance companies, by all skeptics and those who just want to know is it true.

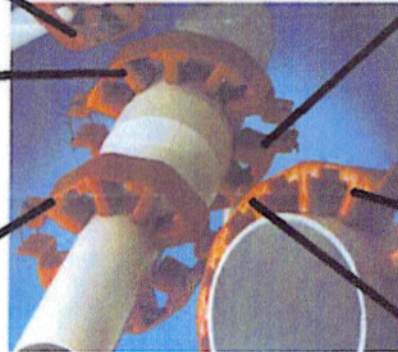

Coils & Heatexchangers

Cars-Trucks-Buses

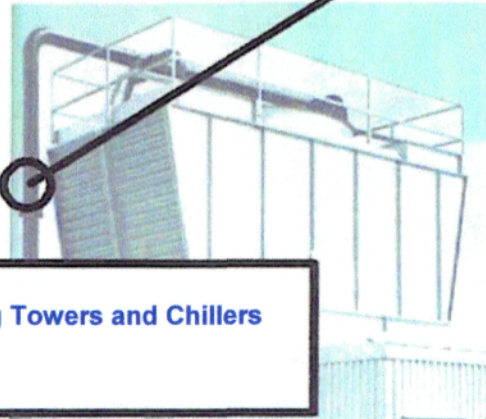

Magnetizer[®]

Homes & Office Buildings

Cooling
Towers

Cooling Towers and Chillers

Water
Reduces/eliminates the need for chemical additives to control scale buildup in heating systems and cooling towers

Fuel
Reduces the consumption of heating fuel up to 35%
Dissolves carbon/varnish build up in lines, jets, injectors
Polarizes fuel for nonhot-spotting uniform burn efficiency

Swimming Pools & Spas
